

Binder validation checklist

1. Facts & identity

Date checked: _____ Photo folder/batch: _____

Tick when evidence is supplied or a question answered, not when a move is merely proposed. Mark movements **approved** / **completed**, with dates. You need not research set names: clear photos let us investigate. Distinguish **checked in hand** from **photo supplied**.

1 Current state & departed cards

Baseline: **1 August 2026; 19 card pages, 171 occupied pockets**. Confirm current locations separately.

- ☐ Confirm unchanged, or list additions, removals and rearrangements since the baseline.
- ☐ Identify any currently empty pockets.
- ☐ Photograph changed pages **before further moves**. Unchanged pages need only confirmation.

Changes / empty pockets:

Locate these four documented departures. Write the holding-box section, elsewhere, released, or unknown. Do not assume they are available reserves.

- ☐ Ursaring – RC16/RC25 _____
- ☐ Typhlosion (Lv.46) – No.157 _____
- ☐ Umbreon – 61/108 _____
- ☐ Electrode – 037/095 _____

Formerly: At Rest; Legendary Bearing; Elemental Solitude; Companions, respectively. The middle two also need identity checks at right.

2 Three image-registry conflicts

For each: **full front + readable number/set-mark detail**; say whether the physical card changed after the photograph. Numbers marked **verify** below are disputed registry values.

- ☐ **Umbreon 053/032 (verify)**
Awakened Power p1, top-middle. Photo: close rearing figure amid angular energy. Registry: moon-and-tower alternative art. Confirm current card, language and printed code/number.
- ☐ **Latios 10/20 (verify)**
Legendary Bearing p1, middle-left. Photo: *Supersonic Flight / Psyburn*. Registry: *Sky Blade / Speed Wing*, Dragon Vault 10/20. Confirm current front, number and attacks.
- ☐ **Dratini 38/130 (verify)**
Quiet Familiarity p1, middle-right. Photo: 26/102. Newer registry: Base Set 2, 38/130. Confirm printing and whether a different copy replaced the photographed card.

Correction, replacement, or unknown?

3 Side-collection checks

- ☐ **Emolga 025/BW-P**: page 2, top-left appears to match the wanted entry. Confirm printing and present ownership.
- ☐ **Emolga 081/BW-P**: page 1, bottom-left has the matching event stamp. Confirm number/variant; wanted label currently says “BW-9 81.”
- ☐ If either is still wanted, specify the missing stamp, foil, edition, condition requirement or other distinction.
- ☐ **Stamped cards**: choose specific event / program / stamp family / other as the organizing rule; note any known acquisition gaps.
- ☐ **Trainer full arts**: note additions/reordering since the full first page and single-card second page.

Notes: _____

4 Remaining 22 registry checks

Match each **name + number + page** to the physical card; supply a full-front photo with readable details. Note corrections and foil/stamp distinctions. Unavailable cards can remain unresolved.

“No.” means Pokédex number, not collector number. It does not uniquely identify a printing. Do not invent missing numbers. “Unnumbered” means no number is printed.

- ☐ Typhlosion (Lv.46) – No.157: set unresolved.
- ☐ Umbreon – 61/108: set unresolved.

Do not reconstruct unavailable cards from memory.

Corrections / missing cards / photo references

Evidence priorities

Send in stages. The most useful first batch is current binder changes, the three image-registry conflicts, and holding-box photos. All 22 checks need not be complete before artwork comparisons begin.

Binder validation checklist

2. Decisions & photos

Pockets refer to the August snapshot: rows top-to-bottom, columns left-to-right. “No.” denotes a Pokédex number. Nothing here records a completed move. EDGE means temporary holding, **not release**.

5 Threshold: confirm destinations

- ☐ Confirm **Squirtle 170/165** and **Dawn’s Stadium unnumbered** remain in Threshold.
- ☐ **Rayquaza 39**: send a glare-free artwork close-up. Does it emerge through a visible boundary, or simply move through a storm?
Decision: Keep / EDGE / Still uncertain.

Two proposed named swaps

Mark each **approve** / **retain** / **discuss** / **completed**, with date if completed. Compare challenger and incumbent side-by-side if useful.

- ☐ **Hoopa 36/98**: Threshold R3C3 → On the Attack R2C2.
Snorlax 046/060 → EDGE.
Threshold source pocket remains empty.
Status / date: _____
- ☐ **Kasumi’s Tears unnumbered**: Threshold R3C1 → Companions p2 R3C1.
Rocket’s Trap unnumbered → EDGE. Threshold source pocket remains empty.
Status / date: _____
- ☐ Confirm the resulting Threshold vacancies are acceptable.
For executed swaps, send dated after photos.

Other agreed weak Threshold inclusions

Confirm EDGE or write an alternative; do not presume a vacancy in another theme.

- ☐ Pikachu 12/17 EDGE / _____
- ☐ Jirachi unnumbered EDGE / _____
- ☐ Deoxys SL1 EDGE / _____
- ☐ Kabuto 50/62 EDGE / _____

6 Other selection priorities

Agree to challenge / **retain** / **discuss**. These are comparison priorities, not instructions to empty pages before the holding box is assessed.

- ☐ **Stufful 075/063**, At Rest: active engagement with the torn object rather than disengagement?
- ☐ **Golem 189/165**, Awakened Power p2: rolling action already underway rather than gathering?
- ☐ **Gengar & Mimikyu**
033/150, Awakened Power p1: intimidation rather than transition?
- ☐ **Houndoom 179**, Awakened Power p1: gathering energy, or completed pose against sparkle?
- ☐ **Mew 193/165**, Legendary Bearing p2: decorative portrait rather than encounter?
- ☐ **Espeon 195/151**, Legendary Bearing p2: graphic sparkle rather than witnessed authority?

Decisions / candidates to compare: _____

Lower priority; no urgent removals: Latias – 30/30, Houndour – 113/165, Dark Espeon – No.196, Cyndaquil – 54/115, Latios – 070/064.

Volume II priorities

- ☐ **Professor Elm 96/111**: compare against a more visibly reciprocal Companions candidate?
- ☐ **Quiet Familiarity**: confirm inhabited life/routine, not merely gentle outdoor imagery, as the selection rule.
- ☐ Identify personal keepers you would retain elsewhere even if they leave Quiet Familiarity.
- ☐ Optional: trial **Cinccino 083/071** at the center of Quiet Familiarity p2, exchanging R3C3 with **Erika’s Dragonair – No.148** at R2C2. Photograph if tried.

Keep Enduring Presence ratified. Do not reopen its two pages merely to make room.

7 World of People boundary

The prompt and philosophy currently differ. Choose:

- ☐ **Environmental emphasis**: human-made places are central; relationships primarily belong in Companions.
 - ☐ **Broader coexistence**: everyday partnership can belong here, with a clear distinction from Companions.
 - ☐ Discuss before deciding.
 - ☐ Test with **Ralts 083/078**: does its domestic relationship belong in World of People?
- Your distinction: _____

8 Holding-box photography

Prepare

- ☐ Keep existing EDGE, REDUNDANT, HERITAGE, FUTURE SELF and RELEASE groups separate. Label unsorted cards **unsorted**; no need to pre-classify.
- ☐ Mark cards unavailable for placement: released, promised, reserved for another collection, etc.
- ☐ Identify any of the four departed cards on page 1.

Each batch

- ☐ Use a consistent grid, **6–9 cards per photo**, fewer if text is too small. No overlapping card faces.
- ☐ Include a paper label: e.g. EDGE-01 or UNSORTED-03. Keep order stable for batch + row + column references.
- ☐ Show full fronts, straight on, in even light without glare; add artwork/number close-ups as needed.
- ☐ Label by card name and printed number where legible; batch + pocket distinguishes otherwise similar cards.
- ☐ Show separate copies separately. Note hard-to-see foil, stamp and language differences.

Do not remove protective sleeves if that risks damage.

Send with the photos

- ☐ Photo date; sections included and any omissions.
- ☐ Cards you particularly want considered; personal keepers even without a thematic home.
- ☐ Checklist decisions, name/number-labelled close-ups, batch-labelled holding photos and changed binder pages.
- ☐ **Separate list of moves actually completed**, with dates and after photos.
