

Curatorial movement checklist

1. Volume II

Date started: _____

Date completed: _____

Ten one-for-one changes selected from the photographed holding pool and checked against TCGdex artwork. Physical duplicates were already removed and are not part of this list. Tick **Moved** only after both cards exchange places. Cards leaving the binder go to the holding box; removal does not mean release.

Threshold — two swaps

IN: Litleo — Mega Evolution 139/132

Holding: IMG_7082 R1C5

OUT: Hoopa EX (hoopa-02)

An open doorway divides interior from courtyard; Litleo is visibly emerging. Hoopa's rings frame an attack rather than a crossing.

☒ After photo ☐ Ledger updated ☐ Incoming ID: _____

Holding destination for Hoopa: ☐ REDUNDANT ☐ Other: _____

IN: Mudkip — JP Tidal Storm 012/070

Holding: IMG_7080 R4C2

OUT: Kasumi's Tears (kasumis-tears-01)

Mudkip pauses beneath a dark structure and looks toward a bright exterior opening. Kasumi's Tears has no readable boundary.

Quiet Familiarity — three swaps

IN: Pikachu — JP McDonald's 020/M-P

Holding: IMG_7081 R1C1

OUT: Charmander (charmander-03)

Restaurant counter, burger, drink and tray: the holding pool's clearest daily-routine image.

Quiet Familiarity stopping rule

- ☐ Stop after these three; do not pad the rebuild with peaceful outdoor portraits.
- ☐ Keep Pikachu GG30 in EDGE, not the binder.
- ☐ Dedenne 093/088 remains Calm in Nature material, not Quiet Familiarity.

Companions — one swap

IN: Ursaring — Legendary Treasures RC16/RC25

Holding: IMG_7081 R3C4

OUT: Rocket's Trap (rockets-trap-01)

Ursaring shelters and embraces Teddiursa; the parent-child bond is the whole composition.

☐ Compared in hand ☒ Moved Date: _____
☒ After photo ☐ Ledger updated ☐ Incoming ID: _____

Existing ID may be ursaring-01; preserve it if this is the documented former binder copy.

Hold, do not place

- ☐ Mudkip EX Dragon 65/97 stays in EDGE. Shared action with Poochyena is less legible than Ursaring's care.

Displaced Volume II cards

For each card leaving a page, mark its actual holding-box section. Do not infer release.

Curatorial movement checklist

2. Volume I

Spheal (spheal-02) is locked in On the Attack. The historical Lucario-for-Spheal proposal is retired. Hoopa qualifies for On the Attack but loses the available challenge to Charizard VSTAR, so Hoopa remains outside the binder after leaving Threshold.

On the Attack — two swaps

IN: Charizard VSTAR — SWSH262

Holding: IMG_7088 R2C2

OUT: Snorlax VMAX (snorlax-02)

Charizard is already colliding with Mewtwo amid debris. Snorlax is reclining; its attack signal depends on card text rather than the image.

☐ Compared in hand ☒ Moved Date: _____
☒ After photo ☐ Ledger updated ☐ Incoming ID: _____

IN: Lucario LV.X — Mysterious Treasures 122/123

Holding: IMG_7081 R4C4

OUT: Ursaring (ursaring-02)

Lucario has a horizontal attack vector, speed streaks and forward commitment. Ursaring roars without a target or depicted strike.

☐ Compared in hand ☒ Moved Date: _____
☒ After photo ☐ Ledger updated ☐ Incoming ID: _____

Explicit locks

- ☐ Keep Spheal (spheal-02).
- ☐ Retire the Lucario-for-Spheal proposal.
- ☐ Do not make a second On the Attack opening for Hoopa.

Awakened Power — one swap

IN: Mewtwo EX — BREAKthrough 157/162

Holding: IMG_7088 R3C1

OUT: Groudon (groudon-01)

Mewtwo is centered inside a rising psychic field immediately before release. Groudon is complete and static.

☒ Compared in hand ☐ Moved Date: _____
☐ After photo ☐ Ledger updated ☐ Incoming ID: _____

Do not substitute Dark Dragonair. Its artwork shows rapid flight and speed trails—action already underway, not gathering power.

Legendary Bearing — one swap

IN: Blastoise VMAX — Chinese printing

Holding: IMG_7080 R1C5

OUT: N's Plan (ns-plan-01)

Monumental frontal body, low viewpoint and unfired cannons stage an encounter with complete power.

☐ Compared in hand ☒ Moved Date: _____

Read and record the Chinese footer; do not copy English SWSH103 metadata from the visual counterpart.

Registration and recording

For every incoming card:

- ☐ Search the registry once more before assigning an ID.
- ☐ Preserve an existing ID if the exact physical card already has one.
- ☐ Otherwise assign the next species counter under registry conventions.
- ☐ Record printed language, set and number from the physical footer; mark uncertainty honestly.
- ☐ Preserve the holding photograph as provenance.

After all physical moves:

- ☐ Photograph On the Attack, Awakened Power p1 and Legendary Bearing p2.
- ☐ Confirm each affected page has nine occupied pockets.
- ☐ Append only movements actually completed to docs/ledger.md.
- ☐ Record holding destinations where known; never equate binder removal with release.
