

Holding Pool Sorting Checklist

Physical sort for the approved 97-card manifest. HP-NNN values are neutral sorting IDs, not photo-pocket coordinates or registry IDs. Locate each card by its printed label and treat every assignment as proposed until checked in hand.

1. Setup and count reconciliation

- ☐ Working surface cleared; Review, Keeper, Trade, and Release areas labelled.
- ☐ Starting physical count: _____ cards. Expected: **97**.
- ☐ Manifest count reconciled: Review **38** + Keeper **46** + Trade **10** + Release **3** = **97**.
- ☐ Review binder ready: seven nine-pocket pages, including one empty Event Staging page.
- ☐ Keeper binder ready: thirteen four-pocket pages. Trade binder ready: three four-pocket pages.
- ☐ Low-confidence identities will be checked in hand before final placement.
