

Holding Sort Completion Checklist

Completion pass for the authoritative 100-card photographed inventory. The current nine-pocket binder is interim staging; use the page locator to find each card, then move it only after its destination is settled.

1. Baseline and safeguards

- ☐ Starting count confirmed: _____ / **100** photographed current cards.
- ☐ Current binder treated as interim staging, not final section order.
- ☐ Yveltal — Steam Siege 65/114 was already removed and is not part of the 100-card starting count.
- ☐ No card is currently authorized for Trade. A Trade choice below requires a fresh owner checkmark.
- ☐ No additional Release is authorized. A Release choice below requires a fresh owner checkmark before physical removal.
- ☐ Prepare final Review and Keeper destinations; leave Event Staging empty.

2. Owner-marked Review choices — confirm, then move

These destinations come from clear marks on the incomplete paper checklist. Confirm each one here; a photographed interim position alone is not a final classification.

4. Recommendations for unfinished prior decisions

Each row now gives a curatorial recommendation, why it is the best fit, and the strongest defensible alternative. Trade and Release remain inactive unless explicitly chosen and authorized.

☐ Recommend: Review · Env.

Momentum

☐ Accept recommendation

☐ Change to:

DARKNESS Houndour — Aquapolis

Wind and terrain visibly drive the subject, so this tests the live Environmental Momentum hypothesis.

Strongest alternative: Keeper · Species Studies, if the Houndour run matters more than the scene.

Recommend: Keeper · Species Studies HB-P01-04	DARKNESS Houndour — Japanese silver-border artwork It is a distinct treatment in an owner-significant line, while its scene has no stronger named Review challenge. Strongest alternative: Review · Env. Momentum, if movement in the setting is persuasive in hand.
Accept recommendation Change to: _____	
Recommend: Review · REDUNDANT · Calm in Nature HB-P02-01	LIGHTNING Mareep — Expedition The card expresses natural ease cleanly but does not currently displace a canonical Calm in Nature card. Strongest alternative: Keeper · Heritage for its e-Card-era printing.
Accept recommendation Change to: _____	
Recommend: Review · REDUNDANT · Calm in Nature HB-P02-02	GRASS Shaymin — Vivid Voltage The peaceful natural scene fits the theme, but the existing page already tells the idea more strongly. Strongest alternative: Keeper · Beautiful Misfits if the artwork is wanted without rotation intent.
Accept recommendation Change to: _____	
Recommend: Review · REDUNDANT · Calm in Nature HB-P02-03	WATER Mudkip — Japanese Sky-Splitting Charisma Its natural setting supports Calm in Nature, while the weak movement signal keeps it out of Environmental Momentum. Strongest alternative: Keeper · Heritage for the Japanese set context.
Accept recommendation Change to: _____	
Recommend: Review · REDUNDANT · Elemental Solitude HB-P02-08	DARKNESS Umbreon — Dark Explorers artwork It remains a valid isolation image that has already lost to stronger Elemental Solitude incumbents. Strongest alternative: Keeper · Heritage if rotation is not genuinely desired.
Accept recommendation Change to: _____	
Recommend: Keeper · Heritage HB-P03-02	FIGHTING Golem — Rising Rivals The forward-lunging artwork expresses action rather than Enduring Presence's held power, while the older printing supplies a durable Keeper role. Strongest alternative: Review · REDUNDANT · On the Attack, only if the radiating force reads as an explicit attack in hand.
Accept recommendation Change to: _____	
Recommend: Keeper · Beautiful Misfits HB-P05-05	COLORLESS Shaymin EX — Roaring Skies full art The premium full art is visually worth keeping but has no active thematic or Trade role. Strongest alternative: Trade, only if explicitly made available later.
Accept recommendation Change to: _____	
Recommend: Keeper · Heritage HB-P05-06	GRASS Torterra Lv.X — Japanese The Japanese Lv.X promo context gives it a durable era-and-release reason to stay. Strongest alternative: Keeper · Beautiful Misfits if the visual treatment matters more than provenance.
Accept recommendation Change to: _____	
Recommend: Keeper · Beautiful Misfits HB-P05-07	PSYCHIC Mewtwo EX — BREAKthrough full art The full-art treatment is worth retaining while extensive Mewtwo coverage leaves no thematic need. Strongest alternative: Keeper · Personal if this specific Mewtwo has personal significance.
Accept recommendation Change to: _____	
Recommend: Keeper · Heritage HB-P06-01	FIRE Ninetales — Japanese vintage printing The vintage Japanese presentation is a direct Heritage rationale even while exact metadata remains unresolved. Strongest alternative: Keeper · Beautiful Misfits if age is not the actual reason for keeping it.
Accept recommendation Change to: _____	
Recommend: Keeper · Heritage HB-P07-01	FIGHTING Sandshrew — Japanese McDonald's The regional McDonald's promo context is historically specific and durable. Strongest alternative: Keeper · Beautiful Misfits if the appeal is primarily the artwork.
Accept recommendation Change to: _____	

5. Recommendations for cards omitted from the old manifest

Page 9

Recommend: Keeper · Heritage HB-P09-01	DRAGON Rayquaza — English, Dragon Pulse/Shred The older Legendary Treasures printing supplies a clearer permanent role than another Legendary Review candidate. Strongest alternative: Review · REDUNDANT · Legendary Bearing if deliberate rotation is desired.
Accept recommendation Change to: _____	
Recommend: Keeper · Personal HB-P09-02	COLORLESS Kecleon — Japanese Lv.38/tongue artwork Kecleon already has established personal significance, and this is a distinct second treatment. Strongest alternative: Keeper · Heritage for the vintage Japanese printing.

COLORLESS Ditto — Japanese SV151-style

It strengthens the bounded Ditto run without pretending the disguise motif is a new theme.

Strongest alternative: Keeper · Beautiful Misfits if the run should remain smaller.
