

Holding Sort Completion Checklist

Completion pass for the authoritative 100-card photographed inventory. The current nine-pocket binder is interim staging; use the page locator to find each card, then move it only after its destination is settled.

1. Baseline and safeguards

- ☐ Starting count confirmed: _____ / **100** photographed current cards.
- ☐ Current binder treated as interim staging, not final section order.
- ☐ Yveltal — Steam Siege 65/114 was already removed and is not part of the 100-card starting count.
- ☐ No card is currently authorized for Trade. A Trade choice below requires a fresh owner checkmark.
- ☐ No additional Release is authorized. A Release choice below requires a fresh owner checkmark before physical removal.
- ☐ Prepare final Review and Keeper destinations; leave Event Staging empty.

2. Owner-marked Review choices — confirm, then move

These destinations come from clear marks on the incomplete paper checklist. Confirm each one here; a photographed interim position alone is not a final classification.

8. Final physical execution

☐ Every decision row above has exactly one destination selected.

☐ Review cards placed by section: EDGE Watches, Existing-theme EDGE, REDUNDANT, FUTURE SELF.

☐ Event Staging page installed empty at the back of Review.

☐ Keeper cards placed by section: Personal, Beautiful Misfits, Heritage, Species Studies.

☐ Any Trade card has a fresh ‘Trade authorized‘ checkmark and is actively available now.

☐ Any new Release card has a fresh ‘Release authorized‘ checkmark and explicit owner execution.

Final counts

☐ Final Review count: _____.

☐ Final Keeper count: _____.

☐ Final Trade count: _____.

☐ Newly authorized Release count from this 100-card pool: _____.

☐ Grand total reconciled: Review + Keeper + Trade + newly authorized Release = _____ / 100.

☐ Section photographs complete: Review ☐ Keeper ☐ Trade, if used ☐ Release, if used ☐

☐ Only executed decisions appended to durable inventory and ledger records.
